## EDITORIAL COMMENT

Call 449 if you fail to get this  
Kentuckian promptly. And if you  
have a news item, phone it to the  
same number.

American soldiers are already in  
Germany. On to Berlin!

The weather Sunday and yesterday  
ceased to be warm. It was hot.

If this thing keeps up, the weather  
man will get himself in bad.

The Thrift Stamp Campaign will  
open next week.

German prisoners returning from  
Russia are to be put back in the  
army.

All of the acts of the last legis-  
lature not containing emergency  
clauses, became effective yesterday.

Here's betting the Huns and Aus-  
trians have started something else  
they can't finish.

The Navy recruiting station at  
Henderson has been closed after  
enlisting 50 men. John Paul Jones  
and Wm. Holey, in charge of the  
station, are now in this city.

The orders sending Maj. Gen.  
Leonard Wood to San Francisco have  
been revoked and he will for the  
present remain at Camp Funston  
Kansas.

Jeremiah O'Leary, indicted in New  
York for violation of the espionage  
act and for treason, a fugitive  
from justice for the past several  
weeks, has been arrested at Sara,  
Wash.

Secretary Baker has approved the  
prison sentences of a number of men  
who had conscientious objections  
against fighting against Germany and  
Austria. The Secretary said after  
the war is over he favored sending  
them back to the countries of their  
preferences.

## FOLLOWING THE FLAG

Judge Jno. L. Dorsey, of Henderson,  
has two sons in the service.  
One is an ensign in the navy and the  
other goes to Camp Taylor this  
week.

Mrs. F. P. Thomas received a cable-  
gram last evening announcing the  
safe arrival of her husband, Capt.  
F. P. Thomas, M. R. C., in Eng-  
land.

Mrs. Geo. Wilson, of Gracey, has  
received a card from her son, Albert  
Wilson, stating that he has arrived  
safe in France. He is a private 1st  
class, and is a member of the 10th  
Field Artillery, Medical Department.

Sergt. Charles D. Shanklin arrived  
in Hopkinsville Saturday night from  
Camp Taylor for a very brief visit  
to relatives and friends. He returned  
to Louisville Sunday night over the  
Illinois Central.

Eldridge Marquess of the Dog-  
wood vicinity and Turner Lane Cline,  
of the extreme northwestern portion  
of the county, have enlisted in the  
Navy. Both these young men regis-  
tered on June 5 under the new  
draft.

Maj. Napoleon W. Riley, of the  
Quartermaster's Division, Ft. Dodge,  
Iowa, is on an inspection tour of the  
cantonments in the east and writes  
his father, Capt. J. W. Riley, that  
he will make him a short visit the  
latter part of the month.

Sergt. Martin S. Underhill, formerly  
with the Bowles' Studio here, but  
now with the Quartermaster  
Corps, remount service, at Camp  
Shelby is in the city for a few days.  
He got a 25 day furlough recently in  
order that he might attend his brother's  
funeral in Tennessee and visit  
relatives in this section.

Mrs. Randolph Dade received a  
letter Saturday from her husband,  
Capt. Dade, that he had arrived safe  
overseas. Capt. Dade joined the  
Medical Corps a few months ago and  
was sent to Ft. Oglethorpe for a  
short course of training but remained  
there only a short time before being  
sent to Newport News, an em-  
barras port.

## INTERVENTION FOR RUSSIA WILL NOT DOWN

(By International News Service.)

Washington, June 17.—A combination of developments all favoring intervention in Russia by the entente allies may force an immediate modification of the policy of non-interference, recently suggested by President Wilson. The details for the rebuilding and interior construction and decorations have not been definitely decided upon but Mr. Davis has some tentative plans in mind and will talk these over with the managers of the Crescent Amusement Co., when he arrives one day this week.

## FIGHT FOLLOWS SUNDAY GAME

(By International News Service.)

FARMERS QUARREL OVER A  
CARD GAME AND ONE  
SHOOT THE OTHER.

(By International News Service.)

R. M. ISOM'S VICTIM SAYS THE  
SHOOTING WAS UNPRO-  
VOKED.

Two young farmers from north Christian fell out over a game of cards they were playing at the Owls Club room, Sunday afternoon, about 4 o'clock, and R. M. Isom shot Peter Renshaw in the bowels with a pistol, inflicting a desperate wound. Only one bullet hit Renshaw but it made five perforations in his intestines. He was hurried to the Stuart Hospital and an operation was performed in the effort to save his life.

Yesterday after stating that he believed he was going to die, Renshaw said the shooting was absolutely unprovoked.

Another man was at the table with Isom and Renshaw, but he has made no statement. Isom claims that he acted in self defense. He gave himself up and his bond was fixed at \$1,000.

In the event of Renshaw's death, the charge will be changed to murder. Renshaw was alive last night but in a very critical condition. All of the chances are against his recovery.

Details of the affair are hard to get in advance of a public hearing, but the current report is that the men were playing cards for a bottle of beer.

Taking cognizance of this report, Circuit Judge Bush instructed the grand jury, which reconvened yesterday, to investigate all phases of the tragedy and to bring in indictments wherever the laws had been violated. One report is that the men were not members of the order of Owls and therefore not entitled to the privileges of the club. It could not be learned whether this is true or not as all interested parties are very reticent concerning the affair.

Last night Renshaw was considered in a hopeless condition.

FROM ALL PARTS OF THE COUN-  
TY SMALL YIELD IS RE-  
PORTED.

(By International News Service.)

HOPES OF A BANNER CROP  
HAVE TAKEN A SEVERE  
TUMBLE.

The buoyant hopes of the farmers that the wheat crop now about harvested would be a record crop, have gone glimmering.

From every part of Christian and adjoining counties comes the complaint that there is a tremendous crop of straw and a very poor yield of grain. Many of the heads are more than half false grains and empty meshes.

Capt. J. W. Riley, of Newstead, who was counting on 20 bushels to the acre, says he will not make more than seven.

John J. Van Cleave says his crop near town is a grievous disappointment.

Baynam & Tandy, at Edogoten, say they will not make more than half a crop.

J. T. Garnett, of Casky, says his crop is far below the first estimate.

## ITALIAN OFFENSIVE.

The much talked of Austro-German drive in Italy was launched Sunday morning.

The Italian and allied armies are bravely sustaining the weight of the Austrian forces which are attacking along the front of the Italian theater from the northwest of the Asiago plateau eastward to the Piave river and thence along that stream to where it joins the headwaters of the Adriatic sea, a front of nearly 100 miles.

Everywhere the fighting is of an extremely sanguinary character, especially east of the Asiago plateau in the Brenta valley and Monte Grappa.

In the initial struggle the enemy succeeded in capturing several front line positions in the mountain region from the British and also in crossing the Piave. Counter-attacks, however, have restored all the positions in the mountain including territory to a depth of 1,000 yards along a 2,500-yard front captured from the British.

At last accounts the allied troops everywhere were strongly holding the enemy and King Victor Emmanuel's men were gallantly striving to throw back the invaders across the Piave. The Italians have taken more than 3,000 Austrian prisoners, among them eighty-nine officers.

As yet the Vienna war office has given only brief mention of the battle, saying that the Austrian armies had invaded the Sette Comuni plateau, lying at an altitude of 3,400 feet northwest of Asiago, and that up to noon Sunday morning more than 10,000 Italian, English and French soldiers and a considerable number of guns had been captured.

Nicaragua experienced three distinct earthquakes shocks Sunday.

The school for artillery officers will open at Camp Taylor June 20.

Sunday was the hottest day of the year, the mercury hovering around 100 degrees.

In many sections farmers worked in their harvest fields Sunday, aided by volunteers from the cities.

There are 17 national parks in the United States, containing in the aggregate 6,264,568 acres. This does not include 35 national monuments.

Dr. Francis S. Nash, medical director in the navy, was fined \$1,000 on a charge of hoarding foodstuffs. An identical charge against his wife was dismissed.

Dr. Charles Lopes Buslamatti, editor of a paper in Caracas, Venezuela, is in this country and broadly hints that German U-boats have sunk people for the allies, the government is strongly pro-German. He left because of the attitude of the paper.

Good Reason Why British Soldier Was Not Overenthusiastic at First Sight of Jerusalem.

One of General Allenby's advance patrols had ridden up a ridge in Palestine, and there, outspread before their eyes like a panorama, was the Holy City—Jerusalem.

It was some miles distant, but in the clear air the flat-roofed houses were plainly visible, broken here and there by domes and minarets.

Ejaculations expressive of surprised admiration broke from the lips of the troopers—all but one man, who remained silent; his face, however, plainly expressing contemptuous disapproval.

"What do you think of it?" asked his officer, anxious to learn the reason for his dissatisfaction.

"Awful scarce of chimbleys, air," was the reply. "Awful scarce of chimbleys!"

"Chimbleys! But man, they don't need chimbleys in Jerusalem. They burn charcoal."

"Oh, they do, do they? Then I wouldn't like to live there."

"Why not?"

"Well, air, in civil life, you see, I am a chimney-sweep."

## A NERVOUS WRECK

From Three Years' Suffering, Says  
Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. O. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work."

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134

## WIN WAR IN KITCHEN

New Slogan of the People of  
Great Britain.

Bones Saved by the Housewives Are  
Turned Into Munitions of  
War.

London—Have that old bone; it may kill a German.

This is the thought that flashes through the mind of the English housewife these days following an appeal made to her to conserve all the old bones from the kitchen, that they may be used in the manufacture of glycerine and then incorporated into bombs and shells for the army in France. The movement has the approval of the minister of munitions.

The appeal to the housewife says that bones will produce glycerine, which yields glycerine for explosives; glycerine for the making of airplanes and bone meal, a fertilizer which increases food crops and thus aids in the battle against the German submarines.

For the bones which were formerly thrown away or burned the housewife will receive one cent a pound from her butcher or margarine dealer, who in turn will receive a profit of one cent a pound in turning them over to the general collector, to whom a fair profit also is allowed.

From the enthusiastic response from the women of England it begins to look as if the plan to "win the war in the kitchen" will prove popular with those unable to go to the front or otherwise offer their services to the government.

## Dead Murderer's Hand.

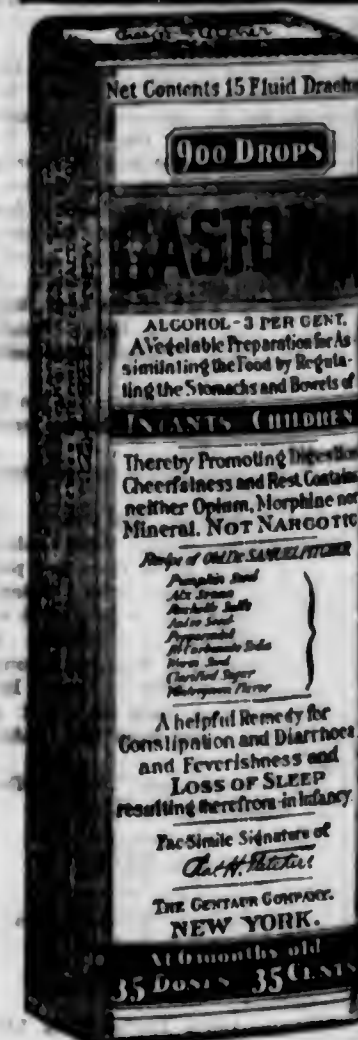

The most ghastly of all tall tales or chimeras was the "Dead Man's Candle," or "Hand of Glory." Sir Walter Scott, in "The Antiquary," describes it, in the mouth of Donal- dwil, as a hand cut off a man hanged for murder. It was dried; he says, in the smoke of juniper and yew. A candle made of the fat of the bear, the badger, and a "little sucking child" having been put into the hand at the proper planetary time, treasure buried then would never be discovered by any but the true owner. Scott, however, was inaccurate. The proper recipe is to be found in "Les Secrets du Peuple Albert." The hand (which had to be the right hand of a murderer hung in chains) was blanched in the sun with mystical ceremonies. The candle was composed mainly of the fat of a murderer scooped from under the way-side gibbet, the wick being made of the twisted hair of the criminal. The light of the horrid candle was alleged to have the effect of preventing those who saw it from moving or calling out, and he who held it could ransack with impunity.

## SHOT IT OUT AT CHURCH

**BIG RALLY MEETING OF COLORED PEOPLE BROKEN UP TEMPORARILY SUNDAY.**

Hensietown is a small place near Edgerton in the south part of the county. Good Hope is the name of the colored church at Hensietown. It was at this place that about 500 colored people met Sunday in a big church rally and were having an all-day good time till about 2 o'clock in the afternoon.

It is reported that Clarence Payne and another colored man named Willoughby met in the road in front of the church and opened pistol fire on each other. About a half dozen shots were fired but nobody was hurt. It is stated that when Payne opened fire on Willoughby the latter lay down in the road and drew his gun and began firing at Payne. Payne's sister undertook to pull him away from the scene and as she did so the bullets from Willoughby's pistol passed through her hair and hat, knocking out some hair pins.

It seems from reports that Sunday's affray was a sequel to a former trouble in which Willoughby, it is said, held Payne's sister while the former's wife stabbed her.

The shooting caused great excitement among the big crowd both inside the church and out of doors. Women screamed and ran, children cried, and men hid. Benches were overturned in the church and the water pitcher on the pulpit was knocked over and broken.

Yesterday the deacons were in Hopkinsville for the purpose of having the malcontents arrested for disturbing public worship.

### HEED THE WARNING

Many Hopkinsville People Have Done So.

When the kidneys are weak they give unmistakable warnings that should not be ignored. By examining the urine and treating the kidneys upon the first sign of disorder, many days of suffering may be saved. Weak kidneys usually expel a dark, ill-smelling urine, full of "brickdust," sediment and painful in passage. Sluggish kidneys often cause a dull pain in the small of the back, headaches, dizzy spells, tired, languid feelings and frequent rheumatic twinges.

Doan's Kidney Pills are for the kidneys only. There is no better recommended remedy.

Hopkinsville people endorse Doan's Kidney Pills.

P. C. Clardy, 219 Bryant St., Hopkinsville, says: "My kidneys caused me to suffer from dull pains across my back and loins. Often, I could hardly bend over, and it was just as difficult to straighten up. My kidneys acted irregular. I bought Doan's Kidney Pills at Cook's Drug Store and they soon rid me of the backache, and fixed my kidneys up."

## THRESHERMEN ARE URGED TO

SAVE WHEAT BY STARTING OUT WITH MACHINES IN REPAIR —BOOKS MUST BE KEPT.

The United States Food Administration requests that each thresher operating in Christian county must keep a book showing:

- 1—Every bushel of wheat threshed by them.
- 2—For whom threshed.
- 3—Date of threshing.
- 4—Quantity as thresherman sees it.

What disposition made of crop, if thresherman knows it. At the end of the season this book must be sent to the County Food Administrator.

We believe we can save several millions of bushels of wheat this year by arranging that all machines go into harvest in excellent repair, with ample power and that during the harvest they are efficiently adjusted to meet varying conditions, so that a minimum of grain is blown into the straw pile. It is figured that this attention will save 1 and a half bushels in every hundred threshed.

Then again it is figured that an extra bushel can be saved in every hundred threshed by arranging that all machines are in such repair that very little grain leaks under and around them on to the ground and that what does leak out in this manner, and is otherwise scattered about the machine, shall be cleaned up and threshed before the machine leaves the field.

Three fourths of a bushel can also be saved in every hundred threshed by careful handling of bundles from the shock to the machine or stack and by arranging light bottoms to the bundle wagons.

If this is attended to carefully, 3 1/4 bushels can be saved in every hundred threshed making a total of 322,028 bushels valued at more than \$644,056 for the State of Kentucky.

Now, FOOD WILL WIN THE WAR, and it's money value is not the principal consideration.

The U. S. Department of Labor offers to assist any way in importing labor for the season if there is not enough in the locality. Blanks are being mailed out to each thresherman concerning this.

G. C. KOFFMAN, Christian County Food Administrator, Hopkinsville Ky.
